

Pioneer RollRight 200

The Pioneer RollRight 200 Doors Are High Performance Vinyl and Mesh Roll-Up doors. Great for Loading Docks, Food Packaging and Processing Facilities, Process Areas, Waste Areas and More!

- ❖ Available in Spring Assist, Chain Hoist, In-Tube Motor, and 22" or 34" per second External Jack Shaft Operator.
- ❖ Maximum size 25'W x 20'H
- ❖ Standard Fabric Weight 22 oz. Vinyl (Also Available in 40 oz. Vinyl)
- ❖ Mounting options: Face of wall, stand off bracket, or e-track mount.
- ❖ Doors up to 11'W will use a 2" track. Doors over 11'W will use a 4" track. Optional 6" track for additional wind load.
- ❖ Break-a-way features - Fiberglass windbars remain flexible enough to pop out in case of accidental contact. Break-a-way feature is used in the bottom windbar to help prevent damage. Aluminum hinge is available for additional wind load.
- ❖ Reset System - Interlocking brush seal is incorporated at the top of the tracks, which allows the door to reset into the guides (in case of accidental contact).
- ❖ High Cycle is Supplied with 3 button push station and reverse Photo Eyes.

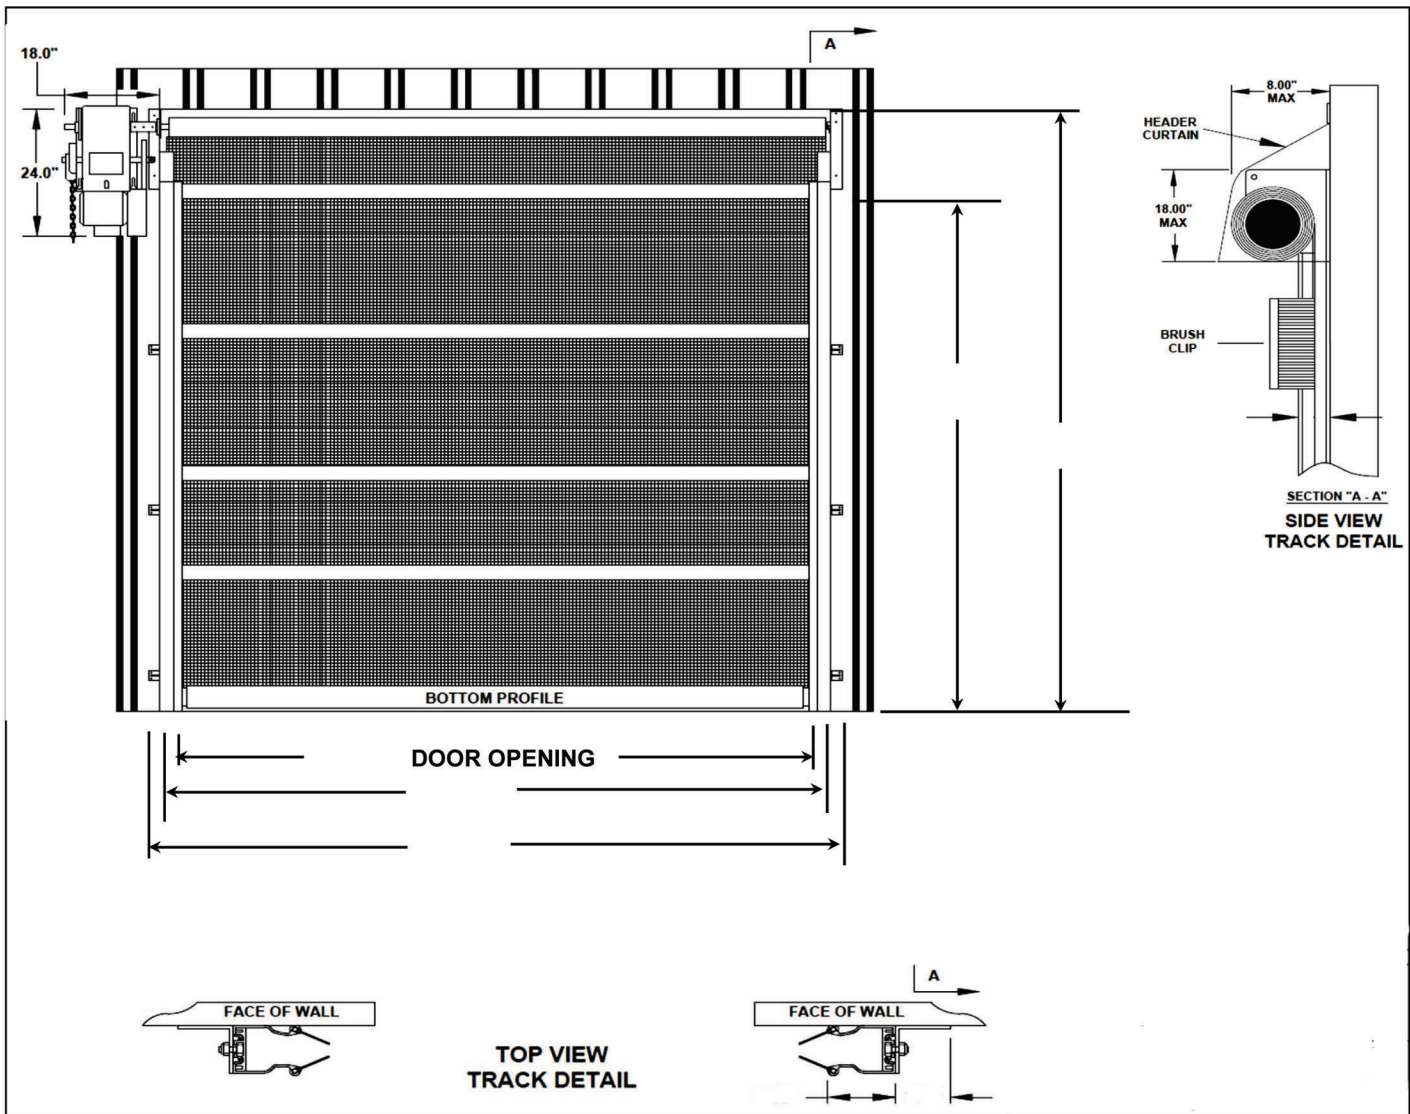

Optional Accessories - 22" per second Motor

Water Tight Motor, Splash Proof Cover, 460V 3 Phase Motor, Safety Edge, Radio Controls, Pull Cords, and Motion Detectors.
